DETAILED ACTION

1. This application is a continuation of application No. 10/217,258.

Claim 26 is pending.

2. Claim 26 is rejected under 35 U.S.C. 101 because the claimed invention is not supported by a well established utility.

Claim 26 is also rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement.

According to the requirement for patent being granted to polymorphic forms, some advantage in terms of stability, formulation, solubility, bioavailability, ease of purification, preparation or synthesis, hygroscopicity, recovery or prevention of precipitation etc. must be submitted in the record (see Brittain p. 185). A survey of the specification, such description for patentability or utility of form B are lacking.
